

PILING UP A DECADE OF RESULTS!

In ten years, Missouri River Relief has amassed an outstanding record:

- Cleaning 1,184,000 pounds of trash from river shores and islands.
- Conducting educational activities for 11,898 students and teachers.
- Taking 14,208 people out on the river to work for a better river environment.

Big Thanks to our generous Sponsors, Partners and Volunteers for making this happen!

Celebrating Accomplishments • Building Partnerships • Taking Action

Be part of our 10th Anniversary!

Aerial Survey of Trash

Starting in winter, River Relief will fly the river to scout and map accumulations of trash while the foliage is bare for the best visibility. This data will be used to direct river cleanups in 2011.

Rolling Cleanups

In the spring and early summer, River Relief will move upriver for a rolling cleanup concentrating on the Missouri National Recreational River. The rolling cleanup will be punctuated by **community-based cleanups in Yankton, Sioux City, Council Bluffs and Omaha.**

Big Muddy Clean Sweep

Our flagship project in the fall will be a continuous two-month **cleanup of river trash using a barge on a downriver voyage** from Kansas City to the Mississippi near St. Louis. The barge will stop in river towns for community cleanups, educational events and barge tours. As we mark our 10th anniversary, River Relief will celebrate with **picnics, parties and boat rides.**

Missouri River Action Teams the MoRATS

As we go along the river, we will be looking for the key groups and people to help **create a community to take action** for improving the river. These Missouri River Action Teams (MoRATs) will work for the health and beauty of the river for decades to come.

"A river that once had almost no friends now has a growing host of passionate protectors, thanks to Missouri River Relief."

-Jim Low, writer, Missouri Department of Conservation
